PROFESSIONAL EXPERIENCE

***Promoted to Associate Vice-President Resource Management & Talent Acquisition
Relevance lab Technologies Private Limited. (Nov 2021- till date)***

(Formerly known as CIGNEX Datamatics Technologies Ltd. | Ahmedabad, Gujarat

As an Associate Vice President and Global Head Resource Management & Talent Acquisition I provide Strategic guidance and input over capacity planning and alignment towards key skills to the executive-level leadership group in the organization .

Led Human Capital Transformation initiatives by redesigning global talent acquisition processes, implementing data-driven workforce planning, optimizing recruitment operations, and leveraging automation to reduce time-to-fill by 30% while improving quality of hire and cost efficiency

I am responsible for setting policies around resource hiring and managing resource allocation. Heading global talent acquisition strategy across North America, India, and Ethiopia. Spearheaded a global TA transformation initiative, reducing time-to-fill by 30% and hiring cost by 18% through direct hires and strategic vendor negotiations, achieving 85% demand fulfillment ratio and successfully worked out ways for hard-to-hire roles.

Developed employer branding campaigns across LinkedIn and Glassdoor, boosting qualified inbound applications by 40%.

Liaised with BU/Stakeholders on workforce planning and succession strategy for business-critical roles.

Managed Internal Resource Mobility , with strategic swapping of resources within projects based on cost and dependencies.

Deployed metrics-driven dashboards to track Bench allocation, BHC(Billable head count) , funnel effectiveness, hiring diversity, and recruiter productivity.

1. Talent Strategy & Workforce Planning

- Define and execute a global hiring strategy aligned with business goals. (understanding New demands, Replacements and internal mobility)
- Forecast future talent needs in partnership with India Delivery Head and Sales.
- Build hiring roadmaps for emerging technologies, niche skills, and global capability centers.

2. Leadership & Team Management: Team sized handled 15 (India: 8, US:4 , Ethiopia: 3)

- Lead, mentor, and scale regional TA teams across geographies (India, US, Ethiopia).
- Ensure consistent TA processes, KPIs, and governance models globally.
- Build a high-performance culture focused on speed, quality, and stakeholder satisfaction.

3. Global Recruitment Operations

- Oversee end-to-end hiring for product engineering, cloud, DevOps, data, cybersecurity, ERP, and other IT verticals.
- Standardize tools, ATS platforms, candidate assessments, and interview processes.
- Drive efficient SLA management, candidate pipeline health, and hiring outcomes across regions.

4. Employer Branding & Talent Marketing

- Strengthen the organization's global employer brand.
- Partner with marketing to execute digital campaigns, tech community outreach, and campus hiring initiatives.
- Promote unique EVP (Employee Value Proposition) branding across all markets.

5. Stakeholder & Business Partnering

- Work closely with business leaders, delivery heads, onsite account managers, and client partners to understand hiring priorities.
- Provide market intelligence, talent availability insights, and competitive benchmarking.
- Serve as a trusted advisor to leadership for all talent-related decisions.

6. Global Process Excellence, Metrics & Compliance

- Establish standardized recruitment processes, documentation, and dashboards for all countries.
- Ensure compliance with local labor laws, immigration requirements, and data privacy norms (GDPR, SOC2, etc.).
- Track and improve recruitment metrics such as time-to-fill, demand fulfilment ratio, cost-per-hire, and quality-of-hire. Where reduced average time to fill from 55 days to 35 days, improved demand fulfilment ratio from 55% to 78.5%, Improved QoH from 65% to 80%, reduced cost per hire by 25%

7. Vendor & Partner Management

- Manage global recruitment partners, RPOs, and third-party staffing vendors.
- Negotiate budgets, SLAs, and performance parameters.
- Ensure optimized usage of sourcing tools, job boards, and assessment platforms.
- Managed Niche technologies assessment through Assessment agencies where Ai driven assessments are done.
- Boutique vendor partnership.

8. Technology, Automation & Analytics

- Lead the adoption of AI-driven sourcing, talent intelligence tools, and automation.
- Create dashboards for leadership: hiring funnel, conversion ratios, regional performance.
- Use data analytics to drive decision-making and improve overall TA efficiency.

9. Special Hiring Programs

- Oversee:
 - Campus & university hiring (Tier-1/Tier-2 colleges globally)
 - Leadership hiring for senior roles
 - Niche skill hiring for GCC.
 - Lateral and contractual staffing programs
- Drive global mobility and internal talent movement initiatives.

10. Budgeting & Cost Optimization

- Manage global TA budget for hiring, branding, tools, and vendors.
- Ensure cost-efficient recruitment models while maintaining quality.
- Optimize global sourcing channels and reduce dependency on external partners.

12. Candidate Experience & Offer Management

- Ensure a superior candidate experience across all touchpoints.
- Standardize offer negotiation guidelines and compensation frameworks across regions.

- Reduce offer dropouts and improve offer-to-joining ratios.
